**capability studies**

We are the largest distributor of Dexion in the UK.

Our planning and installation teams are recognised as experts in the industry.

Successfully completing the Achilles programme and achieving the accreditation reiterates our dedication to providing quality products, services, compliance and commitment to our customers increasing demands regarding health and safety, environmental and corporate governance.

"HIGHLY COMMENDED"

QUALITY ASSURANCE SCHEME AUDIT 2014

As a SEMA distributor company we work to the latest industry standards and codes of practice. We are one of a handful of companies in the UK able to offer independent SEMA approved rack inspections.

Prince's Trust

At CSI we are proud to support The Prince's Trust in their great efforts to support young people into work and training. To help raise funds we donate £1 for every order placed on our website.

As a BSI member we have achieved ISO9001 for over 10 Years.

**The CSI Solutions team is here to help each and every one of our customers get **more** from their workplace.**

Knowing that within every workplace there is hidden potential our specialist solutions team will help you find that extra space, make your environment safer, and create a more efficient workflow.

From the supply of a few bays of shelving in the office, to the design and installation of a fully integrated warehouse or production facility, we offer solutions and project management which are tailored to your needs.

**Scope of Works**

**RUSSELL EUROPE**  
**Retail & Distribution**  
**£220,000**  
**Bathgate, West Lothian**  
**Racking, Shelving & Mezzanine Floor**

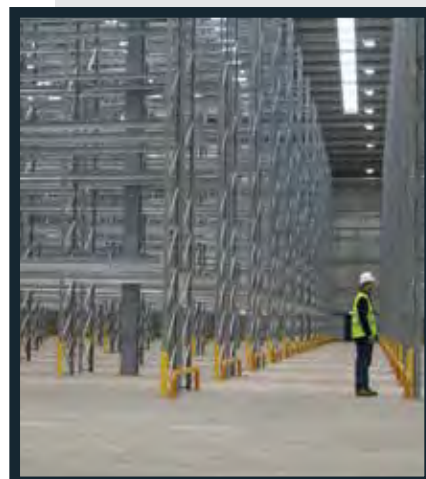

Full design, supply and installation of pallet racking and multi-tier shelving with a mezzanine floor. CSI delivered a well-engineered and competitively priced project that is sustainable for Russell Europe's future. Their European Distribution Centre's storage capacity has hugely increased, enabling the company to create a more orderly and efficient goods in/goods out procedure.

**Client**

**Location**  
**Scope of Works**

**INTERNACIONALE**  
**Retail & Distribution**  
**£400,000**  
**EuroCentral, Glasgow**  
**Pallet Racking**

CSI specified, supplied and installed Dexion P90 pallet racking to Internationale's warehouse in Central Scotland. The chosen layout provided 20,000 pallet locations using a mix of frame heights ranging from six to twelve metres high. CSI worked on several layouts for various buildings to enable the client to decide on the premises that would best suit their storage needs.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**HARPER COLLINS**  
**Publishing**  
**£198,000**  
**Westerhill Road, Glasgow**  
**Pallet Racking & Conveyor**

Supply and installation of pallet racking, conveyor and shelving to warehouse environment.

**Client** **KONGSBERG**  
**Sector** **Engineering/Technology**  
**Value** **£94,000**  
**Location** **Aberdeen**  
**Scope of Works** **Warehouse & Workshop Fit-out**

Full turnkey project that included the installation of racking, static and mobile shelving and supply of workshop and storage equipment. CSI provided a comprehensive package to meet all of the client's storage needs including mesh partitioning, longspan shelving, slimline lockers and roller shutter cabinets for merchandising stock.

**Client** **PANALPINA WORLD FREIGHT**  
**Sector** **Oil & Gas**  
**Value** **£50,000**  
**Location** **Aberdeen**  
**Scope of Works** **Pallet & Cantilever Racking**

Dexion Speedlock P90 Silverline and Cantilever Racking to provide space saving narrow aisle storage capability for new Aberdeen depot.

**Client** **AKER KVAERNER**  
**Sector** **Oil & Gas**  
**Value** **£120,000**  
**Location** **Aberdeen**  
**Scope of Works** **Mezzanine Floor, Shelving & Racking**

Mezzanine floor, Dexion Impex mobile shelving and Speedlock MK3 pallet racking was used to maximise the available space to create a 2 tier storage facility.

**Client** **SONSUB**  
**Sector** **Oil & Gas**  
**Value** **£80,000**  
**Location** **Aberdeen**  
**Scope of Works** **Racking, Shelving & Mezzanine Floor**

Mezzanine floor, Dexion Speedlock P90 Silver-line Racking, Economy & HI280 shelving to create new space saving 2 tier store for new Aberdeen building.

**Client** **POLICE SCOTLAND**  
**Sector** **Local Authority**  
**Location** **Edinburgh & The Lothians**  
**Scope of Works** **Custom Lockers**

Design & installation of a bespoke locker for Police Scotland. A new locker design was required by client to house several items of personnel equipment including belts, uniforms, body armour and a secure visible storage area for CS Gas canisters and radios. The CSI team developed the "Copper Locker" an innovative, unique locker, now trademarked and used by many Forces across the UK.

**Client** **LOVAT MILL**  
**Sector** **Textiles**  
**Value** **£50,000**  
**Location** **Scottish Borders**  
**Scope of Works** **Goods Lift, Mezzanine Floor & Shelving**

Design & installation of a mezzanine floor, goods lift and increased storage using Dexion Longspan Shelving. The CSI team specified and delivered additional storage for clients tweed bales, and worked with the client to improve productivity and safety of goods handling with installation of a bespoke goods lift. The project has increased the client's storage capacity by over 100%.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**BAKER HUGHES**  
**Oil & Gas**  
**£92,585**  
**Aberdeen**  
**Cantilever Racking**

Full design, supply & installation of cantilever racking. The client required a replacement for its ageing racking system in the firms Aberdeen warehouse. CSI's industrial solutions team delivered a new cantilever racking system which increased the working height and overall storage capacity. The project delivery included removal of the existing system in a tight timeframe, minimizing disruption to operations.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**SCHLUMBERGER**  
**Oil & Gas**  
**£109,000**  
**Aberdeen**  
**Racking**

Full design, supply and installation of cantilever racking & roofing in clients storage yard. Schlumberger's lack of secure external storage space which was adversely affecting business operations. The CSI team worked with the client to deliver a robust, weather resistant cantilever racking system, able to store all current stock with room for expansion.

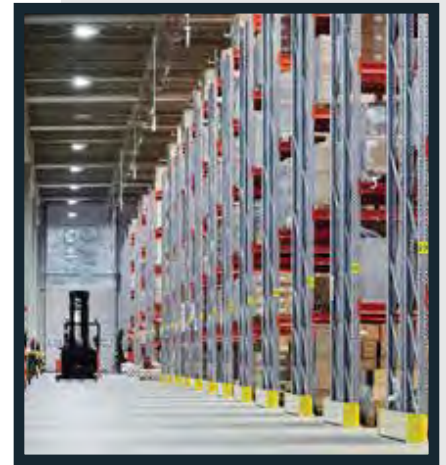

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**WEIR POWER & INDUSTRIAL SERVICES**  
**Industrial Engineering**  
**£43,000**  
**Alloa, Clackmannanshire**  
**Racking & Workshop Equipment**

Supply and installation of Dexion pallet racking across two warehouse sites with differing operational requirements. Using Dexion P100 pallet racking the CSI team increased the firms storage capability at the main site by over 70% , at the second site a lighter duty racking, Dexion P90 was supplied and installed. The creation of two separate stores has aided the client to improve stock control and improve work flow.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**BRISTOW HELICOPTERS**  
**Aviation**  
**£8,280**  
**Aberdeen**  
**Mobile Shelving**

Bristow required a new storage system to increase the capacity and improve its organisation of small parts and components. The CSI team designed and installed HI280 mobile shelving, decreasing the footprint of the previous storage whilst also increasing capacity. The new small parts store has helped the client streamline process and improve stock handling efficiency.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**METROL**  
**Oil & Gas**  
**£38,223**  
**Aberdeen**  
**Racking & Shelving**

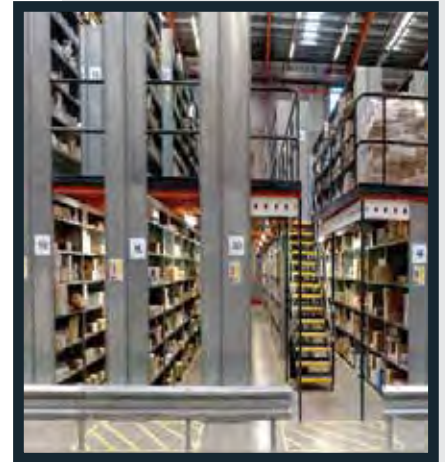

Full design, supply and installation of pallet racking and industrial shelving. CSI delivered a cost-effective storage solution with a professional appearance that mirrors the rest of Metrol's facility. Constructed using some of the most advanced, adjustable warehouse products available on the market, the new system offers the company a long-lasting platform for future expansion.

**Client** **ENDURA**  
**Sector** **Retail**  
**Value** **£140,000**  
**Location** **West Lothian**  
**Scope of Works** **Shelving, Mezzanine Floor & Racking**

The CSI team designed and installed an efficient solution for Endura's new warehouse. A two-tier Dexion HI280 shelving system with mezzanine floor was designed and installed, with a separate installation of Dexion P90 Silverline pallet racking to provide the client with storage over 1200 pallet locations. The finished project delivered a contemporary warehouse offering maximum functionality and storage capacity with a quality aesthetic to mirror that of the firm's new location.

**Client** **MITSUBISHI ELECTRIC**  
**Sector** **Electrical Equipment & Electronics**  
**Value** **£52,000**  
**Location** **West Lothian**  
**Scope of Works** **Drive-in Pallet Racking**

To meet the firm's increasing need for additional stock holding capacity at its Research and Development Centre, the CSI team designed and installed Dexion Drive-in Pallet Racking, providing 800 new pallet locations. The installation has allowed Mitsubishi to increase stock holding considerably, helping to improve their service across Europe and reduce the need for the client to rely on third-party storage.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**NATIONAL GALLERIES OF SCOTLAND**  
**Public**  
**£31,000**  
**Edinburgh**  
**Museum Shelving & Storage**

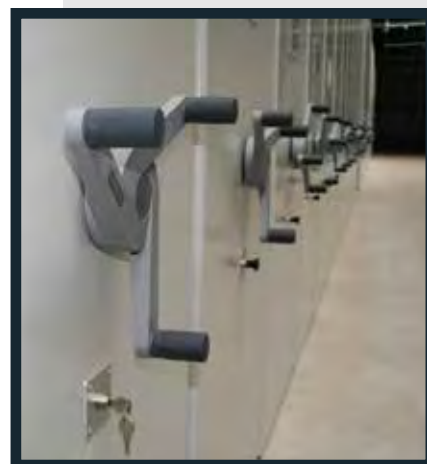

Supply and installation of shelving for museum storage, including small parts and large object storage.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**DUNDEE UNIVERSITY**  
**Education**  
**£100,000**  
**Dundee**  
**Mobile Shelving**

Supply and installation of one thousand bays of Dexion Bruynzeel mobile shelving to the university's off site storage. This provided space for approximately 250,000 books.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**BBC SCOTLAND**  
**Media**  
**£100,000**  
**Glasgow**  
**Archive & Mobile Shelving**

Installation of Compactus Archive range of mobile shelving including the installation of floor jacks below the rails to transfer the load of the system to the concrete slab below.

CSI also installed Dexion mobile shelving for the storage of digital tapes containing our favourite television programmes for the new digital broadcasting centre for BBC Scotland in Glasgow. The new facility has been positioned in the 'digital quarter' at Pacific Quay on the banks of the River Clyde.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

## DUNDEE CITY COUNCIL

**Public**  
**£500,000**  
**Dundee**  
**Mobile Shelving**

To install a mobile shelving solution with circa 41,000 l/m of file storage capacity. The design concept allows each local authority segregated and secure storage to its own individual records allowing documents to be retrieved with ease and efficiency. This was a complete design and build project for CSI who also project managed the job.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

## SEAWELL

**Oil & Gas**  
**£25,000**  
**Aberdeen**  
**Bruynzeel Mobile Shelving**

Bruynzeel Compactus mobile shelving system to provide a high density storage solution for both filing and archive storage which needed to be both stylish and practical.

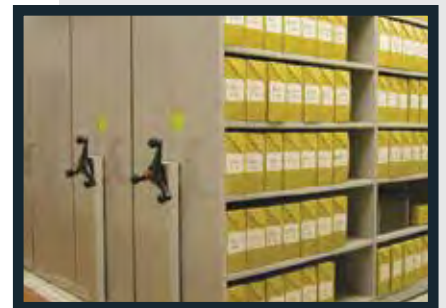

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

## WEST LOTHIAN COUNCIL

**Public**  
**£68,000**  
**Livingston, West Lothian**  
**Archive Shelving & Mezzanine Floor**

The supply and installation of mobile record shelving, mezzanine floor area and a special two hour fire rated and temperature controlled store for the new flagship archiving store in West Lothian.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

## NHS NATIONAL SERVICES SCOTLAND

**Healthcare**  
**£24,000**  
**Edinburgh**  
**Electro Mobile Shelving**

Working in partnership with NHS National Services Scotland, CSI provided a space saving solution that offered a new level of operating convenience, comfort, safety and efficient storage retrieval. The Electro mobile system uses a simple touch panel to allow the shelving bays to move easily from side-to-side to provide access.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**BLUESKY BUSINESS SPACE**  
**Commercial Property**  
**£150,000**  
**Aberdeen**  
**Partitioning & Interior Fit-Out**

Fit-out of two new buildings for provision of flexible office space. Apton demountable partitioning was used for its relocatability and flexibility. Common break out areas and reception were provided using modular and relocatable systems.

**Client**  
**Sector**  
**Value**

**£120,000**  
**Aberdeen**  
**Partitioning**

Apton Silverline and Komfort LS90 to provide stylish and modern fit-out of new Aberdeen headquarters building.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**ITI TECH MEDIA**  
**Media**  
**£123,000**  
**Glasgow**  
**Furniture**

Supply and installation of office furniture, including desking, seating, breakout furniture, storage, boardroom and reception furniture.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**BAKER**  
**Oil & Gas**  
**£230,000**  
**Aberdeen**  
**Office Refurbishment**

Refurbishment of two floors of clients headquarters building using Komfort classic and Armstrong suspended ceilings.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**TAQA BRATANI**  
**Oil & Gas**  
**£220,000**  
**Aberdeen**  
**Office Fit-Out**

Fit-out of new headquarters building using Armstrong suspended ceilings during the construction of the building shell, Optima 117 glazed partitioning and Optima advanced drywall were also used for the office fit-out.

**Client**  
**Sector**  
**Value**  
**Location**  
**Scope of Works**

**PENTLAND COMPONENTS LTD**  
**Automotive**  
**£450,000**  
**Edinburgh**  
**Mezzanine Floor, Racking & Shelving**

Full turn-key fit-out for clients headquarters building in Edinburgh. This project involved the design, supply and installation of a mezzanine floor - approximately 9000 square feet in size, escape stairs, pallet racking and shelving which included display shelving for the trade showroom.

# Why are Rack Inspections Important?

Regular rack inspections help to minimise the number and severity of warehouse accidents. Our rack inspectors offer a comprehensive, convenient and cost effective way to keep your warehouse safe and compliant with Health & Safety regulations.

Over the year, moving goods, modifying the configuration and general knocks through daily use can cause changes in the capacity of your racking and potentially lead to accidents - a risk to both man and material.

Qualified Inspectors can spot these changes early and help eliminate and reduce future costs.

Our SEMA Approved Rack Inspectors carry out comprehensive annual inspections. Providing you with detailed reports offering professional advice and highlighting areas that require attention, immediately or in the near future, through an easy to understand traffic light scoring system.

Inspections comply with all government legislation and industry guidelines.

Our rack inspectors are **SEMA**  
(Storage Equipment Manufacturers Association)  
approved and hold the **SARI** certificate

- » Comprehensive professional inspection by SEMA Approved Rack Inspectors (SARI)
- » Experienced Inspectors certified to SEMA standards
- » Independent expert to assess your equipment
- » Detailed inspection report
- » No interruption to operations
- » Early risk discovery minimised future repair costs
- » Prevention of damage to people or goods
- » Extending lifespan of facilities

## Our Accreditations

**"HIGHLY COMMENDED"**  
QUALITY ASSURANCE SCHEME AUDIT 2014

*"CSI have clearly demonstrated a 'highly commended' level of commitment to meeting and exceeding the standards laid down by the industry"*

✓ **Independent Reporting**

✓ **UK Wide Coverage**

# Legislation

Maintaining rack safety is not simply an important warehouse practice: it is a legal obligation.

Under the **Workplace (Health, Safety and Welfare) Regulations of 1992** and the **Provision and Use of Work Equipment Regulations (PUWER) of 1998**, employers are legally required to inspect their work equipment, including all pallet racking.

This means that any business with even as little as one bay of racking is required to carry out regular SEMA-approved examinations.

Racking should be inspected on a regular basis and should be carried out in accordance with SEMA Guidelines No.6 - Guide to the Conduct of Pallet Racking and Shelving Surveys.

The frequency of inspections depends on a wide variety of factors that are particular to the site, however the first inspection should be carried out within 6 months of the installation becoming operational and thereafter at a maximum of 12-month intervals. Records of these inspections must be maintained.

## LEGISLATION
